SUBJECT INDEX

Abortion
Detection of *Chlamydia psittaci* from various animal species by reverse passive haemagglutination 57
Acheloplasma spp.
In vitro testing of the anti-mycoplasma effect of some anti-coccidial drugs 65
Agglutinations
Lectin agglutination of thermophilic *Campylobacter* species 163
Akabane virus
Isolation of Akabane virus from the biting midge *Culicoides oxystoma* in Japan 243
Arthropods
Isolation of Akabane virus from the biting midge *Culicoides oxystoma* in Japan 243
Aujeszky's Disease
Relative rates of Aujeszky's disease virus attenuation, as assessed in mice 249
Bacteriology
Binding of fibronectin to *Escherichia coli* isolated from bovine mastitis from different geographical regions 129
Capsule types of *Klebsiella pneumoniae* isolated from the genital tract of mares with metritis, extra-genital sites of healthy mares and the genital tract of stallions 219
Cellular responses in the skin of Merino sheep to repeated inoculation with *Dermatophilus congolensis* 151
Characterisation of the outer membrane protein antigens of British field isolates of *Moraxella bovis* 181
Cytotoxins in non-enterotoxigenic strains of *Escherichia coli* isolated from feces of diarrheic calves 137
Detection of *Chlamydia psittaci* from various animal species by reverse passive haemagglutination 57
Detection of leptospires in biological fluids using DNA hybridisation 71
Diagnosis of *Rhodococcus equi* infection in foals by the agar gel diffusion test with protein antigen 105
Effect of bovine non-agglutinating antibodies on the blood clearance of ^{131}I-labelled *Brucella abortus* Strain 45/20 121
Effect of cyclophosphamide and carrageenan on resistance of mice to *Erysipelothrix rhusiopathiae* 341
Effect of maternal vaccination on the susceptibility of growing pigs to leptospiral infection 79
Effects of smooth and rough *Pasteurella haemolytica* lipopolysaccharides on plasma cyclic-nucleotides and free fatty acids in calves 279
In vitro adhesion of K88ab-, K88ac- and K88ad-positive *Escherichia coli* to intestinal villi, to buccal cells and to erythrocytes of weaned piglets 201
In vitro testing of the anti-mycoplasma effect of some anti-coccidial drugs 65
Lectin agglutination of thermophilic *Campylobacter* species 163
Leptospiral attachment to extracellular matrix of mouse fibroblast (L929) cells 89
Occurrence of *Prototheca zopfii*, a mastitis pathogen, in milk 315
Possible relationship of proliferative enteritis in pigs and hamsters 293
Preparation and characterisation of envelope proteins from *Haemophilus pleuropneumoniae* 303
Probable transmission between animals of a plasmid encoding aminoglycoside 3-N-acetyltransferase IV and dihydrofolate reductase I 97

Production of Iota toxin by *Clostridium Spiroforme*; a requirement for divalent cations .. 115
Reinfection of bovine mammary glands following dry-cow antibiotic therapy 191
Serum and skin surface antibody responses in Merino sheep given three successive inoculations with *Dermatophilus congolensis* 209
Vaccination of cattle with chemically modified and unmodified salt-extractable proteins from *Brucella abortus* 325

Biochemistry
Effects of smooth and rough *Pasteurella haemolytica* lipopolysaccharides on plasma cyclic-nucleotides and free fatty acids in calves 279
Preparation and characterisation of envelope proteins from *Haemophilus pleuropneumoniae* 303

Bluetongue
Genetic reassortment of bluetongue virus Serotype 11 strains in the bovine 11

Breda virus
Studies on bovine Breda virus 261

Bronchitis
Comparison of two strains of avian infectious bronchitis virus for their interferon induction, viral growth and development of virus-neutralizing antibody in experimentally-infected chickens 31

Brucella abortus
Effect of bovine non-agglutinating antibodies on the blood clearance of ^{131}I-labelled *Brucella abortus* Strain 45/20 121
Vaccination of cattle with chemically modified and unmodified salt-extractable proteins from *Brucella abortus* 325

Campylobacter spp.
Lectin agglutination of thermophilic *Campylobacter* species 163
Possible relationship of proliferative enteritis in pigs and hamsters 293

Cat
Detection of *Chlamydia psittaci* from various animal species by reverse passive haemagglutination 57

Cattle
Binding of fibronectin to *Escherichia coli* isolated from bovine mastitis from different geographical regions 129
Cytotoxins in non-enterotoxigenic strains of *Escherichia coli* isolated from feces of diarrheic calves 137
Effect of bovine non-agglutinating antibodies on the blood clearance of ^{131}I-labelled *Brucella abortus* Strain 45/20 121
Effects of smooth and rough *Pasteurella haemolytica* lipopolysaccharides of plasma cyclic-nucleotides and free fatty acids in calves 279
Genetic reassortment of bluetongue virus Serotype 11 strains in the bovine 11
Isolation of Akabane virus from the biting midge *Culicoides oxystoma* in Japan 243
Occurrence of *Prototheca zopfii*, a mastitis pathogen, in milk 315

Studies on bovine Breda virus 261
The isolation of a virus resembling a polyomavirus from normal calves 175
The Ruminant Immune System in Health and Disease (Book Review) 348
Vaccination of cattle with chemically modified and unmodified salt-extractable proteins from *Brucella abortus* 325

Chlamydia psittaci
Detection of *Chlamydia psittaci* from various animal species by reverse passive haemagglutination 57

Clostridium spiroforme
Production of Iota toxin by *Clostridium spiroforme*; a requirement for divalent cations ... 115
Conjunctivitus
Characterisation of the outer membrane protein antigens of British field isolates of *Moraxella bovis* ... 181
Detection of *Chlamydia psittaci* from various animal species by reverse passive haemagglutination ... 57
Control
In vitro testing of the anti-mycoplasma effect of some anti-coccidial drugs ... 65
Reinfection of bovine mammary glands following dry-cow antibiotic therapy ... 191
Vaccination of cyclophosphamide-treated chickens against Newcastle disease virus infection ... 41
Dog
A solid-phase fluorescent immunoassay for detecting canine or mink enteritis parvoviruses in faecal samples ... 1
Dermatophilus congolensis
Cellular responses in the skin of Merino sheep to repeated inoculation with *Dermatophilus congolensis* ... 151
Serum and skin surface antibody responses in Merino sheep given three successive inoculations with *Dermatophilus congolensis* ... 209
Diagnostics
A solid-phase fluorescent immunoassay for detecting canine or mink enteritis parvoviruses in faecal samples ... 1
Detection of *Chlamydia psittaci* from various animal species by reverse passive haemagglutination ... 57
Detection of leptospires in biological fluids using DNA hybridisation ... 71
Diagnosis of *Rhodococcus equi* infection in foals by the agar gel diffusion test with protein antigen ... 105
The isolation of a virus resembling a polyomavirus from normal calves ... 175
Disease transmission
Isolation of Akabane virus from the biting midge *Culicoides oxystoma* in Japan ... 243
Possible relationship of proliferative enteritis in pigs and hamsters ... 293
Probable transmission between animals of a plasmid encoding aminoglycoside 3-N-acetyltransferase IV and dihydrofolate reductase I ... 97
Drugs
Effect of cyclophosphamide and carrageenan on resistance of mice to *Erysipelothrix rhusiopathiae* ... 341
Enteritis
A solid-phase fluorescent immunoassay for detecting canine or mink enteritis parvoviruses in faecal samples ... 1
Possible relationship of proliferative enteritis in pigs and hamsters ... 293
Erysipelothrix rhusiopathiae
Effect of cyclophosphamide and carrageenan on resistance of mice to *Erysipelothrix rhusiopathiae* ... 341
Escherichia coli
Binding of fibronectin to *Escherichia coli* isolated from bovine mastitis from different geographical regions ... 129
Cytotoxins in non-enterotoxigenic strains of *Escherichia coli* isolated from feces of diarrheic calves ... 137

In vitro adhesion of K88ab-, K88ac- and K88ad-positive *Escherichia coli* to intestinal villi, to buccal cells and to erythrocytes of weaned piglets 201
Probable transmission between animals of a plasmid encoding aminoglycoside 3-N-acetyltransferase IV and dihydrofolate reductase I 97
Fibronectin
Binding of fibronectin to *Escherichia coli* isolated from bovine mastitis from different geographical regions 129
Genetics
Genetic reassortment of bluetongue virus Serotype 11 strains in the bovine 11
Haemophilus pleuropneumoniae
Preparation and characterisation of envelope proteins from *Haemophilus pleuropneumoniae* 303
Hamster
Possible relationship of proliferative enteritis in pigs and hamsters 293
Horse
Capsule types of *Klebsiella pneumoniae* isolated from the genital tract of mares with metritis, extra-genital sites of healthy mares and the genital tract of stallions 219
Diagnosis of *Rhodococcus equi* infection in foals by the agar gel diffusion test with protein antigen 105
Immunology
A qualitative and quantitative assessment of the humoral antibody response of the sheep to orf virus infection 229
Characterisation of the outer membrane protein antigens of British field isolates of *Moraxella bovis* 181
Comparison of two strains of avian infectious bronchitis virus for their interferon induction, viral growth and development of virus-neutralizing antibody in experimentally-infected chickens 31
Effect of bovine non-agglutinating antibodies on the blood clearance of ^{131}I-labelled *Brucella abortus* Strain 45/20 121
Effect of cyclophosphamide and carrageenan on resistance of mice to *Erysipelothrix rhusiopathiae* 341
Immunity in Invertebrates-Cells, Molecules and Defense Reactions (Book Review) 257
Monoclonal Antibodies Against Bacteria, Vol. II (Book Review) 259
Preparation and characterisation of envelope proteins from *Haemophilus pleuropneumoniae* 303
Serum and skin surface antibody responses in Merino sheep given three successive inoculations with *Dermatophilus congolensis* 209
The Ruminant Immune System in Health and Disease (Book Review) 348
Interferon
Comparison of two strains of avian infectious bronchitis virus for their interferon induction, viral growth and development of virus-neutralizing antibody in experimentally-infected chickens 31
Klebsiella pneumoniae
Capsule types of *Klebsiella pneumoniae* isolated from the genital tract of mares with metritis, extra-genital sites of healthy mares and the genital tract of stallions 219
Lectin
Lectin agglutination of thermophilic *Campylobacter* species 163
Leptospira interrogans
Detection of leptospires in biological fluids using DNA hybridisation 71
Effect of maternal vaccination on the susceptibility of growing pigs to leptospiral infection 79

Leptospiral attachment to extracellular matrix of mouse fibroblast (L929) cells 89
Life cycles
Isolation of Akabane virus from the biting midge *Culicoides oxystoma* in Japan 243
Lymphocytes
Induction of lymphocyte agglutination and lysis by Newcastle disease virus 49
Mastitis
Binding of fibronectin to *Escherichia coli* isolated from bovine mastitis from different geographical regions 129
Occurrence of *Prototheca zopfii*, a mastitis pathogen, in milk 315
Reinfection of bovine mammary glands following dry-cow antibiotic therapy 191
Metritis
Capsule types of *Klebsiella pneumoniae* isolated from the genital tract of mares with metritis, extra-genital sites of healthy mares and the genital tract of stallions 219
Milk
Occurrence of *Prototheca zopfii*, a mastitis pathogen, in milk 315
Mink
A solid-phase fluorescent immunoassay for detecting canine or mink enteritis parvoviruses in faecal samples 1
Moraxella bovis
Characterisation of the outer membrane protein antigens of British field isolates of *Moraxella bovis* 181
Mouse
Effect of cyclophosphamide and carrageenan on resistance of mice to *Erysipelothrix rhusiopathiae* 341
Leptospiral attachment to extracellular matrix of mouse fibroblast (L929) cells 89
Mycoplasma spp.
In vitro testing of the anti-mycoplasma effect of some anti-coccidial drugs 65
Newcastle Disease
Induction of lymphocyte agglutination and lysis by Newcastle disease virus 49
Vaccination of cyclophosphamide-treated chickens against Newcastle disease virus infection 41
Orf virus
A qualititave and quantitative assessment of the humoral antibody response of the sheep to orf virus infection 229
Parvovirus
A solid-phase fluorescent immunoassay for detecting canine or mink enteritis parvoviruses in faecal samples 1
Pathogenicity of a skin isolate of porcine parvovirus in swine fetuses 19
Pasteurella haemolytica
Effects of smooth and rough *Pasteurella haemolytica* lipopolysaccharides on plasma cyclic-nucleotides and free fatty acids in calves 279
Pathogenicity
Induction of lymphocyte agglutination and lysis by Newcastle disease virus 49
Pathogenicity of a skin isolate of porcine parvovirus in swine fetuses 19
Relative rates of Aujeszky's disease virus attenuation, as assessed in mice 249
Pathogenisis
Cellular responses in the skin of Merino sheep to repeated inoculation with *Dermatophilus congolensis* 151
Pig
Effect of maternal vaccination on the susceptibility of growing pigs to leptospiral infection 79

In vitro adhesion of K88ab-, K88ac- and K88ad-positive *Escherichia coli* to intestinal villi, to buccal cells and to erythrocytes of weaned piglets 201
Pathogenicity of a skin isolate of porcine parvovirus in swine fetuses 19
Possible relationship of proliferative enteritis in pigs and hamsters 293
Polyomavirus
The isolation of a virus resembling a polyomavirus from normal calves 175
Poultry
Comparison of two strains of avian infectious bronchitis virus for their interferon induction, viral growth and development of virus-neutralizing antibody in experimentally-infected chickens 31
Vaccination of cyclophosphamide-treated chickens against Newcastle disease virus infection 41
Prototheca zopfii
Occurrence of *Prototheca zopfii*, a mastitis pathogen, in milk 315
Reproduction diseases
Pathogenicity of a skin isolate of porcine parvovirus in swine fetuses 19
Rhodococcus equi
Diagnosis of *Rhodococcus equi* infection in foals by the agar gel diffusion test with protein antigen 105
Sheep
A qualitative and quantitative assessment of the humoral antibody response of the sheep to orf virus infection 229
Cellular responses in the skin of Merino sheep to repeated inoculation with *Dermatophilus congolensis* 151
Detection of *Chlamydia psittaci* from various animal species by reverse passive haemagglutination 57
Serum and skin surface antibody responses in Merino sheep given three successive inoculations with *Dermatophilus congolensis* 209
Staphylococcus aureus
Reinfection of bovine mammary glands following dry-cow antibiotic therapy 191
Streptococcus sp.
Reinfection of bovine mammary glands following dry-cow antibiotic therapy 191
Toxins
Cytotoxins in non-enterotoxigenic strains of *Escherichia coli* isolated from feces of diarrheic calves 137
Effects of smooth and rough *Pasteurella haemolytica* lipopolysaccharides on plasma cyclic-nucleotides and free fatty acids in calves 279
Production of Iota toxin by *Clostridium spiroforme*; a requirement for divalent cations ... 115
Vaccination
Cellular responses in the skin of Merino sheep to repeated inoculation with *Dermatophilus congolensis* 151
Effect of maternal vaccination on the susceptibility of growing pigs to leptospiral infection 79
Vaccination of cattle with chemically modified and unmodified salt-extractable proteins from *Brucella abortus* 325
Vaccination of cyclophosphamide-treated chickens against Newcastle disease virus infection 41
Virology
A qualititave and quantitative assessment of the humoral antibody response of the sheep to orf virus infection 229

A solid-phase fluorescent immunoassay for detecting canine or mink enteritis parvoviruses in faecal samples 1
Comparison of two strains of avian infectious bronchitis virus for their interferon induction, viral growth and development of virus-neutralizing antibody in experimentally-infected chickens 31
Genetic reassortment of bluetongue virus Serotype 11 strains in the bovine 11
Induction of lymphocyte agglutination and lysis by Newcastle disease virus 49
Isolation of Akabane virus from the biting midge *Culicoides oxystoma* in Japan 243
Pathogenicity of a skin isolate of porcine parvovirus in swine fetuses 19
Relative rates of Aujeszky's disease virus attenuation, as assessed in mice 249
Studies on bovine Breda virus 261
The isolation of a virus resembling a polyomavirus from normal calves 175
Vaccination of cyclophosphamide-treated chickens against Newcastle disease virus infection 41
Virus Infections of Carnivores (Book Review) 347

Virulence
In vitro adhesion of K88ab-, K88ac- and K88ad-positive *Escherichia coli* to intestinal villi, to buccal cells and to erythrocytes of weaned piglets 201
Leptospiral attachment to extracellular matrix of mouse fibroblast (L929) cells 89
Relative rates of Aujeszky's disease virus attenuation, as assessed in mice 249
